

Cyprus Kiosk Company.

Interactive Information Kiosks.

Client Brief.

Larnaka Tourism Body in collaboration with Cyprus Kiosk Company required an effective way of providing information to tourists 24 hours-a-day.

Acquire's Solution.

Working with Cyprus Kiosk Company Acquire Digital established a digital kiosk network and installed kiosks into key locations throughout Larnaka including the beach front and the main square.

Features and Benefits.

- Provides valuable information to tourists.
- Actively drives business to tourist attractions to increase business.
- Improved the Tourist information service.
- Screens play individual content in full HD.
- Updates to all kiosks can be made from one single location.
- Multi language information provided.

The Acquire Software.

The Acquire Software allows updates to be made to all kiosks from one single location. The kiosk content was designed in consultation with the Acquire content team who were able to provide valuable insights into how to best display the digital information to achieve maximum results.

The information provided on the kiosks includes the history of Larnaka, all attractions, bus routes, and maps and is available in English, Greek, German, Russian and French.
